

Modified Senior Project (Optional)

The Senior Project at BRHS is designed to prepare high school seniors for the world after high school. The students practice skills valued by employers and colleges, giving them a chance to experience what life will be like in a workplace or university. For students who take SCF classes, attend MTC or complete coursework early, most of these skills have already been practiced. If you would like to share your knowledge, you are welcome to complete an optional modified project to help underclassmen who are considering their options during registration. Please choose 1 of the following modified senior projects.

Dos and Don'ts

Make a chart of dos and don'ts for students considering your path. Think about what you learned and how it could help another student.

Top Things You Should Know

Make a list of the top 10 things you think someone should know before choosing your path. Think about what you wish someone had told you ahead of time or what valuable lessons you learned along the way.

Advice Video

Create a brief video (30-45 seconds) giving your advice to an underclassman considering your path. Talk about what the best and most difficult parts were for you.

Submit your modified senior project to Mrs. Reid Spears through One Drive or email: reid2j@manateeschools.net.
